# IMMUNIZATION DISCUSSION

STUDENT B's QUESTIONS (Do not show these to student A)

- 1) Do you think we can get immunized against all diseases one day?
- 2) What is the benefit to the world of immunization?
- 3) What do you think of the argument that immunization contributes to overpopulation and should be banned?
- 4) Do you think there's still a need for immunization in rich countries?
- 5) Do you think immunizations are 100% safe?
- 6) Do immunizations stop at childhood?
- 7) Do you think new diseases will appear that need immunization?
- 8) Would you like to be immunized against old age?
- 9) Would you want your government to immunize thousands of children against a killer disease or produce one missile?
- 10) How would your country be affected if there was no immunization?
